

Introducing the unique

Recyclatrax

Rubber Track Recycling Program

Osprey Industrial are pleased to offer the first genuine rubber track recycling program which, using state-of-the-art equipment, processes end of life rubber tracks and converts them to clean reusable materials.

The process is strictly controlled at every stage and is fully approved and registered with the Environmental Agency. Each batch is bar-coded for traceability purposes and a recycled guarantee certificate is produced for every batch processed - a great way to promote your commitment to the environment to staff and customers alike.

Call us today on **01592 655770** for further information

Printed on recycled paper

This voucher entitles the holder to a **25% discount** off our standard Rubber Track Recycling prices.
